#### STAT Testing Request Form

We gladly accept deliveries Monday-Saturday, excluding holidays CLIA License #11D0703390; CAP License #1441004; State of Georgia License #060-381

DOB \_\_\_\_\_

STAT Testing - Expedite Your Results					
IMPORTANT: To request STAT Testing, STAT Testing Form must be completed, signed and submitted with test request form. Failure to do so will delay your order.					
For a nomina	For a nominal fee, the following tests are available for STAT Testing:				
Neurochemistry (NC) & Metabol (MET) Tests \$100 per test - 7 day TAT	Molecular (MOL) Test \$200 per test - 2 week TA				
NOTE: All MNG tests rely heavily on our proprietary Genome MaNaGer™ variant calling process coupled with our Neurogenetic Answers™ first-in-class reporting platform that delivers the actionable results you expect. MNG Laboratories will ensure any STAT orders meet the stated deadline, or the STAT fee will be waived.

# Informed Consent for Genetic Testing In compliance with New York State Civil Law: Section 79-L

We gladly accept deliveries Monday-Saturday, excluding holidays CLIA License #11D0703390; CAP License #1441004; State of Georgia License #060-381

Please provide a copy of completed consent with sample and requisition. Failure to do so may delay testing.

	hen signed and dated, this written consent is written authorization to par					
1.	Purpose of the Test: My physician has explained the recommended t	esting: (name of				
	test or MNG test code), which is performed to help diagnose					
	(insert disease description). I am aware that all documentation regarding this testing, including the description of the purpose, methodology, and disorders is freely available at www.mnglabs.com/tests and has either been reviewed with me by my physician or I have read the documentation on my own. Patient (or parent/guardian) initials:					
2.	<b>Statement Regarding Test Result:</b> A positive test result is an indic disease tested for. A negative result may/may not rule out a genetic disc tested. The individual may wish to consider further independent testing	order depending on clinical history and quality/type of specimen				
3.	Level of Certainty: Is test-specific and determined by the methods employed, patient's clinical history and sometimes by the nature of the patient's condition at time of sampling. There is always a small possibility of error or failure in sample analysis; this is true with complex testing in any laboratory. Inclusion of clinical data, such as medical history, family history, images as they relate to the disease or disorder, will decrease the level of uncertainty in an interpretation and are encouraged to be included when submitting samples for analysis. MNG Laboratories will keep personal information private in accordance with HIPAA laws.  I consent to the retention of these documents by MNG Laboratories in their database.  Patient (or parent/guardian) Initials:					
4.	Disclosing Test Results: The following categories of persons or organizations that test results may be released to include, but are not limited to: hospitals or laboratories involved in the patient's care, referring physician(s) and primary care providers, other physician groups (consultants, surgeons), insurance companies (as provided by the patient or referring physician for payment purposes) and other professionals involved in patient care that assist MNG Laboratories in carrying out treatment, payment, and operational activities. Results are kept confidential. Medical Neurogenetics complies with security and privacy statutes of the federal Health Information Portability and Accountability Act (HIPAA). If a patient chooses to specifically declare where results may be released (other than the referring institution and ordering physician), please provide these <i>in writing</i> to the Compliance Officer, MNG Laboratories (quickresponse@mnglabs.com).					
5.	Consent to Retain Specimen: The laboratory does not return any report to Retain Specimen: The laboratory does not return any report No clinical tests other than those authorized shall be performed on the my referring physician or other authorized healthcare professional and MNG Laboratories will retain the samples for longer periods for use in assurance processes.	he sample. A request for additional testing must be made by d there will be an additional charge. If agreed by the patient, an anonymous fashion for research/development or for quality				
	consent to have my specimens retained after completion of initial testing (this consent may be withdrawn at any imme and the laboratory will destroy any remaining sample). Patient (or parent/guardian) Initials:					
6.	Testing for Genetic Conditions can be Complex: If warranted, obtain understand what the risks and benefits are to having the testing complet understand that a biologic specimen will be obtained from me and/or will be used for the purpose of attempting to determine if I, or members or are at increased risk to someday be affected with this genetic disease.	eted. I hereby consent to participate in testing described above. members of my family. I understand that this biologic specimen of my family, are affected or are carriers of a particular disease				
	Signature of Patient	Date
