RNA Sequencing Test Request Form

5424 Glenridge Drive NE | Atlanta, GA 30342 USA | phone: 844.TESTMNG | fax: 678.225.0212 | mnglabs.com

Patient Name ______________________________ DOB ____________________

RNA Sequencing (2-4 week turnaround time)

IMPORTANT: Please contact MNG Laboratories prior to ordering RNA sequencing to avoid delay in sample processing*

MNG does NOT report cancer related genes

MNG Comprehensive Transcriptome™	☐ Full RNA sequencing *Please include any previous genomic data or a report*
Panel Specific RNA Sequencing	☐ One Panel *NGS Test Code:* ____________________
Gene Specific RNA Sequencing *(list 1-5 genes)*	☐ Up to 5 Genes ________ ________ ________ ________ ________

Patient and Specimen Information

Patient Last Name	Patient First Name
Patient ID #	Date of Birth [MM/DD/YYYY]
Diagnosis/ICD-10	Gender of Patient: ☐ Male ☐ Female
Was Patient Tested at MNG? ☐ Yes ☐ No If Yes, Specify Report Date [MM/DD/YYYY]	Tissue Type: ☐ Blood ☐ Fibroblasts ☐ Skin Biopsy ☐ Muscle Biopsy ☐ Brain/Nerve Biopsy

Referring Physician Information

Referring Physician Name	
Referring Physician NPI # [Required] *Or international equivalent*	
Facility / Organization	Phone
Select and Provide Email or Fax for Report Delivery	☐ Email ☐ Fax

Billing Information *(REQUIRED)*

Self-Pay? ☐ Yes ☐ No	If yes, **MUST** include payer contact name & details:
Facility Responsible for Payment	Phone
Facility Contact Person	Email
Facility Billing Address 1	Fax
Facility Billing Address 2	
City, State, Zip Code	

Results (sent by secure HIPAA-compliant email or fax)

Authorized Recipient Name	Authorized Recipient Name
Facility	Facility
Phone	Phone
☐ Fax ☐ Email	☐ Fax ☐ Email

***RNA sequencing validated for muscle, whole blood, skin biopsy, brain, nerve tissue, and some cell lines. Please call MNG prior to ordering RNA sequencing.**

Informed Consent for Genetic Testing

In compliance with New York State Civil Law: Section 79-L

5424 Glenridge Drive NE | Atlanta, GA 30342 USA | phone: 844.TESTMNG | fax: 678.225.0212 | mnglabs.com

Patient Name ________________________________ DOB ____________________

Please provide a copy of completed consent with sample and requisition. Failure to do so may delay testing.

When signed and dated, this written consent is written authorization to participate in genetic testing.

1. **Purpose of the Test:** My physician has explained the recommended testing: ______________________ (name of test or MNG test code), which is performed to help diagnose ______________________________ ____(insert disease description). I am aware that all documentation regarding this testing, including the description of the purpose, methodology, and disorders is freely available at www.mnglabs.com/tests and has either been reviewed with me by my physician or I have read the documentation on my own. **Patient (or parent/guardian) initials:** __________

2. **Statement Regarding Test Result:** A positive test result is an indication that the individual has a genetic cause for the specific disease tested for. A negative result may/may not rule out a genetic disorder depending on clinical history and quality/type of specimen tested. The individual may wish to consider further independent testing, consult a personal physician or pursue genetic counseling.

3. **Level of Certainty:** Is test-specific and determined by the methods employed, patient's clinical history and sometimes by the nature of the patient's condition at time of sampling. There is always a small possibility of error or failure in sample analysis; this is true with complex testing in any laboratory. Inclusion of clinical data, such as medical history, family history, images as they relate to the disease or disorder, will decrease the level of uncertainty in an interpretation and are encouraged to be included when submitting samples for analysis. MNG Laboratories will keep personal information private in accordance with HIPAA laws.
   I consent to the retention of these documents by MNG Laboratories in their database.
   Patient (or parent/guardian) Initials: __________

4. **Disclosing Test Results:** The following categories of persons or organizations that test results may be released to include, but are not limited to: hospitals or laboratories involved in the patient's care, referring physician(s) and primary care providers, other physician groups (consultants, surgeons), insurance companies (as provided by the patient or referring physician for payment purposes), and other professionals involved in patient care that assist MNG Laboratories in carrying out treatment, payment, and operational activities. Results are kept confidential. Medical Neurogenetics complies with security and privacy statutes of the federal Health Information Portability and Accountability Act (HIPAA). If a patient chooses to specifically declare where results may be released (other than the referring institution and ordering physician), please provide these *in writing* to the Compliance Officer, MNG Laboratories (quickresponse@mnglabs.com).

5. **Consent to Retain Specimen:** The laboratory does not return any remaining sample to individuals or physicians unless requested. No clinical tests other than those authorized shall be performed on the sample. A request for additional testing must be made by my referring physician or other authorized healthcare professional and there will be an additional charge. If agreed by the patient, MNG Laboratories will retain the samples for longer periods for use in an anonymous fashion for research/development or for quality assurance processes.
   I consent to have my specimens retained after completion of initial testing (this consent may be withdrawn at any time and the laboratory will destroy any remaining sample). Patient (or parent/guardian) Initials: __________

6. **Testing for Genetic Conditions can be Complex:** If warranted, obtain professional genetic counseling prior to giving consent to fully understand what the risks and benefits are to having the testing completed. I hereby consent to participate in testing described above. I understand that a biologic specimen will be obtained from me and/or members of my family. I understand that this biologic specimen will be used for the purpose of attempting to determine if I, or members of my family, are affected or are carriers of a particular disease or are at increased risk to someday be affected with this genetic disease.

______________________________ **Signature of Patient**	______________________________ Date
______________________________ **Authorized Signature (Parent/Guardian)**	______________________________ Relationship
______________________________ Name of Patient (*please print clearly*)	______________________________ Name of Ordering MD (*please print clearly*)
______________________________ Referring Facility (*please print clearly*)	______________________________ **Signature of Ordering MD**

Important: One signature from patient (or parent/guardian), authorized person, or physician is required to complete this form. New York requires signatures from patient (or parent/guardian) AND ordering physician to complete this form.
